Small-Group Activity: Supporting Students in Online Courses
Jot down your top 3 changes you'd like to see in your students' academic behavior.

Question: **In your experience in your online courses, do these instructional strategies seem feasible? How does it resonate with what you have tried or currently do in your online courses?**

Notes:

Question: **How does your institution support instructors in their efforts to help students develop academically supportive behaviors and strategies such as SDL skills and mindsets?**

Notes:

Ideas to follow up on:
